EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr David Mundt on Sept 19, 2006.

The application has been amended as follows:

17. (Currently Amended) A cellular telephone including a subsystem for transmitting a cellular telephone audio signal on a radio-frequency carrier, wherein said radio frequency transmission is inhibited upon receipt of a control signal generated at the entrance to a defined restricted-communication area, said cellular telephone comprising: a receiver subsystem within the cellular phone responsive to said control signal, for generating a restricted-communications signal upon receipt of said control signal, and for a predetermined time thereafter; and a transmitter-inhibit system responsive to said restricted-communication signal that inhibits said radio-frequency carrier transmission within the restricted-communication area; and an override mechanism within the cellular telephone responsive to a command set over said radio-frequency carrier, wherein the override mechanism can cause the cellular telephone to ignore the restricted communication signal, thereby permitting radio-frequency carrier transmission within the restricted-communication area.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to CongVan Tran whose telephone number is 571-272-7871. The examiner can normally be reached on Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nick Corsaro can be reached on 571-272-7876. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
